## Section 3: Composition/Information on Ingredients

Component	CAS Number	Weight %
Acrylate Resin	3290-92-4	10-50
Methyl Methacrylate	80-62-6	10-50
Dental Glass	41-4	30-60

## Section 4: First-Aid Measures

<b>Eye contact</b>	Flush the contaminated eye with flowing water for 15 minutes. If irritation persists, obtain medical care.
<b>Ingestion</b>	For large quantities, see emergency physician.
<b>Skin contact</b>	Wash affected area thoroughly with mild soap and water.

## Section 5: Fire-Fighting Measures

**Suitable Extinguishing Media:** Use dry chemical, foam, or carbon dioxide to extinguish fire. Water may be ineffective but should be used to cool fire-exposed containers, structures and to protect personnel. Use water to dilute spills and to flush them away from sources of ignition.

**Fire Fighting Procedures:** Do not flush down sewers or other drainage systems. Exposed firefighters must wear NIOSH-approved positive pressure self-contained breathing apparatus with full-face mask and full protective clothing.

**Unusual Fire and Explosion Hazards:** Dangerous when exposed to heat or flame. Will form flammable or explosive mixtures with air at room temperature. Vapor or gas may spread to distant ignition sources and flash back. Vapors or gas may accumulate in low areas. Runoff to sewer may cause fire or explosion hazard. Containers may explode in heat of fire. Vapors may concentrate in confined areas. Liquid will float and may reignite on the surface of water.

**Combustion Products:** Irritating or toxic substances may be emitted upon thermal decomposition. Thermal decomposition products may include oxides of carbon and nitrogen.

## Section 6: Accidental Release Measures

For small quantities, as in this product: Wear gloves and splash goggles.

Absorb spill with inert material, such as paper towels. Place all absorbent material in closed container away from heat, sparks, and flame. Wash area of spill with soap and water.

## Section 7: Handling and Storage

**Handling and Storage Precautions:** Store tightly closed at room temperature in a dry area, away from incompatible materials. Empty containers may retain residual product and should be handled appropriately.

**Steps to be Taken if Material is Released or Spilled:** For small quantities, as in this product: Wear gloves and splash goggles. Absorb spill with inert material, such as paper towels. Place all absorbent material in closed container away from heat, sparks, and flame. Wash area of spill with soap and water.

**Waste Disposal Method:** Follow all government regulations. Keep spills out of sewers. open bodies of water.

## Section 8: Exposure Controls/Personal Protection

**Respiratory Protection:** Surgical mask is usually adequate.

**Ventilation:** No special ventilation is usually required.

**Protective Gloves:** Recommended.

**Eye Protection:** Safety glasses or splash goggles are recommended.

**Other Protective Clothing or Equipment:** Emergency eye wash fountain. Dental staff should wear lab coats.
